

# R&I in Support of the Clean Industrial Deal: Decarbonisation of energy intensive industries

HORIZON-CID-2026-01-01

Program:	<b>Horizon Europe Horizontal</b>
Típus:	<b>Innovation Action</b>
TRL szint:	<b>8</b>
Támogatás projektenként:	<b>15-25M EUR</b>
Támogatott projektek száma:	<b>8</b>
Pályázati felület megnyílik:	<b>18 December 2025</b>
Beadási határidő:	<b>15 September 2026</b>
Felhívás linkje:	<a href="#">LINK</a>

Proposals are expected to:

- demonstrate an adequate integration of relevant technologies in support of the Clean Industrial Deal. The integration can either be demonstrated in a direct (e.g. reduction of greenhouse emissions of a process) or an indirect (e.g. production of a new green/clean product) manner. Reduction or avoidance of harmful pollutants and impact on biodiversity may also be considered, as relevant. The use of relevant results of R&I projects previously or ongoing funded at EU, national or regional level is encouraged;
- show industrial leadership in the deployment after the project. To ensure market readiness and effective collaboration amongst relevant stakeholders, the consortium should be industry driven and composed of a preferably small and manageable number of participants, and its size should be justified. The participation of SMEs is encouraged.

# R&I in Support of the Clean Industrial Deal: Clean Technologies for Climate Action

HORIZON-CID-2026-01-02

Program:	<b>Horizon Europe Horizontal</b>
Típus:	<b>Innovation Action</b>
TRL szint:	<b>8</b>
Támogatás projektenként:	<b>15-25M EUR</b>
Támogatott projektek száma:	<b>8</b>
Pályázati felület megnyílik:	<b>18 December 2025</b>
Beadási határidő:	<b>15 September 2026</b>
Felhívás linkje:	<a href="#">LINK</a>

Proposals are expected to address one or several of these areas:

- Integrated net-zero emissions energy systems (e.g. including energy grids, networks and systems);
- Enhanced zero-emission power technologies (e.g. including renewable electricity, heat and energy technologies);
- Storage technologies, renewable fuels, and carbon capture and utilisation (CCU) (e.g. including batteries and other energy storage solutions, renewable hydrogen, advanced biofuels and synthetic renewable fuels) enabling climate neutrality.
